RE: A NEW BALLFIELD FOR THE
MIRACLE LEAGUE OF VALDOSTA
VALDOSTA, GEORGIA

Dear Jeremy,

We are excited about the opportunity of being involved with the design and construction of the new facilities for the Miracle League of Valdosta. We would like to donate our services for the architectural design and implementation and as much of the engineering design that we are capable of doing in-house. We do not have engineers on staff, but have had great success in working with local subcontractors to secure the information needed for permitting. Depending on the City of Valdosta's requirements for the civil engineering, we may need assistance with the hydrology study and calculations for retention of storm water.

Once you have secured the site and possibly a topographical survey, we can provide the schematic CAD designs for your fund raising effort.

Once again, we look forward to working with you and the Miracle League Committee on this most important effort.

Best Regards,
RICHARD HILL & ASSOCIATES, P.C.
